

Job Descriptions – Engineering & Support

Document ID	DOC-14
Vietnamese title	Mô tả công việc khối Kỹ thuật & Hỗ trợ
Category	Role Description
Department	Engineering
Version	1.0
Status	Active
Effective date	2026-01-01
Owner	Head of Engineering

1. Purpose

This document describes the four technical and service roles that keep the Company's platform running for customers: Software Support Engineer, Team Leader / Tech Lead, Customer Support Executive and Data Analyst. It is the reference for recruitment, the onboarding learning path of each role (DOC-11) and probation reviews.

2. Common Standards for Technical Roles [MANDATORY]

- Access production customer data only through approved, logged tooling, never through direct database exports (DOC-06 §4).
- Use multi-factor authentication on every system that holds customer or financial data (DOC-06 §2).
- Report any suspected security incident to IT Security within 1 hour of discovery (DOC-06 §5).
- Complete the Information Security (DOC-06) and Data Privacy (DOC-05) modules within the first 30 days before production access is granted (DOC-01 §7, DOC-11 §6.3).

3. Software Support Engineer

3.1 Mission

Deliver software releases to customers safely and resolve technical issues that Customer Support cannot solve at Tier 1.

3.2 Key Responsibilities [MANDATORY]

- Execute deployments and run the pre-deployment checklist: passing test suite, updated release notes, documented rollback plan, and customer notified at least 24 hours in advance (DOC-10 §3).
- Record the Team Leader's sign-off in the deployment log before any production deployment (DOC-10 §4).
- Execute the rollback plan if critical issues appear within 2 hours of a deployment and inform the Team Leader immediately (DOC-10 §5).

- Confirm functionality with the customer at handover and close the deployment ticket (DOC-10 §6).
- Take technical ownership of Tier 2 tickets assigned by the Team Leader and update the ticket at least once per business day until resolved.

3.3 Decision Limits [ROLE-SPECIFIC: Software Support Engineer]

- May execute a rollback without prior approval when the rollback criteria of DOC-10 §5 are met.
- May not deploy to production without a recorded Team Leader sign-off; deployments without sign-off are policy violations (DOC-10 §4, DOC-04 §6).

3.4 Performance Indicators

- Share of deployments completed without rollback.
- Share of deployments with a complete checklist and recorded sign-off (target: 100 percent).
- Median time to resolve Tier 2 technical tickets.

4. Team Leader / Tech Lead

4.1 Mission

Lead an engineering team, guard the quality of every release and act as the Tier 2 escalation owner for customer issues.

4.2 Key Responsibilities [MANDATORY]

- Review and sign off every production deployment of the team in the deployment log (DOC-10 §2, §4).
- Own Tier 2 customer escalations jointly with the Customer Support Executive (DOC-07 §3).
- Escalate any Tier 2 escalation still unresolved after 48 hours to the Branch Manager (DOC-07 §4.3).
- Run a weekly team review of open tickets, deployments and incidents.
- Coach new engineers through the role-critical modules of their onboarding learning path (DOC-11 §6.2).

4.3 Decision Limits [ROLE-SPECIFIC: Team Leader / Tech Lead]

- May approve flexible start times for Engineering and Data staff (DOC-01 §3.1).
- May accept a delegation from the Branch Manager for deals of 500,000,000 VND or more and for Tier 3 compensation only when named in a written delegation (DOC-12 §3.2).
- Annual leave entitlement is 15 days per year (DOC-03 §2.1).

4.4 Performance Indicators

- Number of Tier 2 escalations older than 48 hours.
- Change failure rate of the team's releases.
- Onboarding completion of new team members within deadlines.

5. Customer Support Executive

5.1 Mission

Be the first point of contact for customers and resolve issues quickly, escalating in time when an issue exceeds Tier 1.

5.2 Key Responsibilities [MANDATORY]

- Acknowledge every incoming customer issue within 2 business hours and attempt first-contact resolution using the approved knowledge base (DOC-07 §4.1).
- Escalate to a Team Leader within 1 business hour any complaint unresolved after 24 hours, or any complaint involving a safety, legal or financial risk (DOC-07 §4.2, requirement R001).
- Log every escalation with ticket ID, customer ID, tier reached, resolution and time-to-resolution (DOC-07 §5).
- Handle customer personal data during escalations only as allowed by DOC-05 §4 and DOC-06 §4.

5.3 Required Training [ROLE-SPECIFIC: Customer Support Executive]

Tier 2 Escalation Authority training must be completed during Week 1 of onboarding, before handling escalations unsupervised (DOC-07 §4.2, DOC-11 §6.2).

5.4 Performance Indicators

- Share of issues acknowledged within 2 business hours.
- First-contact resolution rate.
- Share of escalations raised within 1 business hour of the trigger.

6. Data Analyst

6.1 Mission

Turn the Company's operational and learning data into reports and insights while protecting the personal data behind them.

6.2 Key Responsibilities [MANDATORY]

- Use anonymised or aggregated datasets for analysis by default (DOC-05 §4, DOC-06 §4).
- Request access to identifiable data only with written approval from the Data Privacy Officer, stating the purpose and the retention period.
- Publish every recurring report with a data dictionary that names the source system and the date range.
- Delete working extracts that contain personal data within 30 days of the analysis being completed.

6.3 Decision Limits [ROLE-SPECIFIC: Data Analyst]

- May create dashboards from aggregated data without further approval.
- May not share row-level customer or learner data outside the Data team without Data Privacy Officer approval (DOC-05 §6).
- Flexible start time is available with manager approval (DOC-01 §3.1).

6.4 Performance Indicators

- On-time delivery of recurring reports.
- Number of data-handling exceptions found in the quarterly access review (target: zero).

7. On-Call Rotation

Engineering and Support take part in an on-call rotation outside working hours for incidents affecting all customers. On-call rules and their compensation are department-specific exceptions to the standard working hours and are defined in DOC-20.

8. Career Path

- Software Support Engineer → Senior Engineer → Team Leader / Tech Lead.
- Customer Support Executive → Senior Support Executive → Team Leader (Support).
- Data Analyst → Senior Data Analyst → Data Lead.

9. Cross-References

- Deployment workflow: DOC-10 §2–§6
- Escalation tiers: DOC-07 §3–§5
- Data access and sharing: DOC-05 §4, §6; DOC-06 §2, §4, §5
- Leave entitlement for Team Leader: DOC-03 §2.1
- Delegation from Branch Manager: DOC-12 §3.2
- On-call exceptions: DOC-20
